A Centre of Excellence in the Heart of Africa

HE MASEMBE OWEN MICHEAL

24th GUILD PRESIDENT

KAMPALA CAMPUS

Dear Sir,

RE: RESIGNATION LETTER.

It is with sincere regret, that I must resign from your government. I hoped that I would not have to do this, and you know I am grateful for all the support you have rendered to me at the time of service.

I have enjoyed serving as the **Attorney General & Minister of Justice and Constitutional Affairs** and am so happy for all the achievements so far. However, I find it useless to me to continue serving if we are doing nothing in regards to answering student's issues.

As the Chief Guild advisor, I have advised you on several ways of engaging the university to have student's issues resolved but none has been done irrespective of my efforts. I have listed a few below for reference;

1. The university asked students to report physically at campus and they were made to pay for housing and meals but only to hear that they were supposed to stay in university halls sleeping as they attend online classes. Why didn't they communicate that they had no class rooms for students instead of wasting their time?
2. There is literally no computer laboratory yet we pay 80,000/- for it every semester.
3. I suggested that we should have a meeting as guild leaders but it seemed to me that I was writing on water.
4. The library can only accommodate one stream not even a full class and this keeps you wondering if indeed we pay for services like our brothers and sisters in Mukono.
5. The issue of canteens has as well become rampant and students have resorted to walking to **Kisenyi (which is a highly risky place)** to look for street food and which will expose students to diseases like Typhoid.
6. Even after putting one small canteen, it's unable to serve the big number of students even after increasing prices of all eats.
7. There is no official communication as to when students will start physical classes and nothing is available to show students that the guild is indeed for students.
8. The university has since developed a character of losing students marks and it's extremely hurting that the university is simply telling students to redo the papers. The most hurting thing is that students who are currently in 4th year and don't have marks of 1st semester year one may end up missing graduation since the current year one is in 2nd semester.

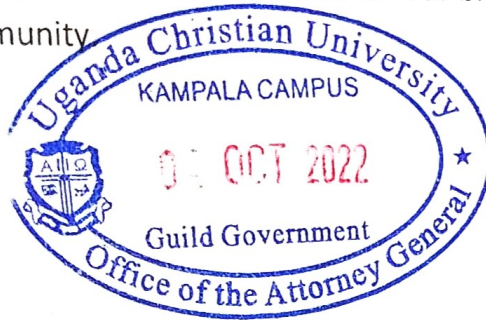

It's from the above-mentioned reasons that I have decided to tender in my resignation letter.

I will continue to champion for better services for our brilliantly talented and inspiring students from the general student community

Yours faithfully
